PROFESSIONAL SUMMARY

Early-career Graphic Designer with 3+ years of practical Canva experience and a consistent track record of freelance, project-based client work in social media design. Have designed for salon, beauty, and lifestyle brands, producing high volumes of Instagram carousels, reel covers, posters, and promotional/festival creatives under real deadlines. Strong foundation in Canva, with Photoshop and Illustrator currently developing alongside core design fundamentals — typography, hierarchy, composition, and color theory. Supplement design work with AI-assisted creative workflows and basic technical literacy, used to speed up ideation and production rather than as a primary skill set. Currently seeking an offline Graphic Design internship or entry-level role to build professional design experience.

CORE SKILLS

Design Software: Canva (3+ Years, Strongest Tool), Adobe Photoshop (Developing), Adobe Illustrator (Developing), Figma (Basic Familiarity)

Design Practice: Social Media Design, Instagram Carousel Design, Reel Cover Design, Poster Design, Visual Content Design, Basic Brand Visual Development

Design Fundamentals: Typography, Color Theory, Composition, Visual Hierarchy, Layout & Grid Fundamentals (currently strengthening)

FREELANCE & PROFESSIONAL EXPERIENCE

Freelance Graphic Designer — Builders Playground

Recent, Short-Term Project (~4–5 Days)

- Designed Instagram highlight covers, reel covers, and posters for a newly launched startup brand.
- Delivered a full set of social media visual assets within a short project window.

Freelance Graphic Designer — Cuts & Curves, Lucknow

Project-Based Freelance, 2026

- Designed 50–60+ social media carousels and posts across the salon's brand accounts, one of the most substantial and sustained freelance engagements to date.
- Created 70+ reel covers and 10+ festival/offer posters to support ongoing social media presence.
- Delivered a batch of 12 social media creatives within a single month (August 2026), reflecting consistent output under deadline.
- Work was structured as project-based freelance across parts of 2026, including a period of roughly one month with no active work.

Freelance Graphic Designer — Ranjeet Raj Official

Project-Based Freelance, Recurring

- Completed approximately 8–9 design projects on an occasional, recurring paid basis.
- Focused on social media and design creatives, with work received intermittently rather than on a fixed schedule.

Freelance Graphic Designer — Keshvi Beauty Lounge

Unpaid Project, ~2 Weeks

- Produced 4+ social media creatives and 4+ festival/offer poster designs.
- Supported Instagram/social media setup and assisted with AI-guided logo direction, brand color, and font selection (non-professional identity design scope).

Freelance Graphic Designer — Waterplane

Project-Based Freelance

- Created 12+ social media posts and carousels over a multi-month period (approx. November–January).

Sample Design Project — Rich Route

Prospect Carousel

- Designed a sample Instagram carousel using an orange visual theme; well-received by the client, though the engagement did not continue further.

SELECTED PROJECTS

Cuts & Curves — Social Media Design System

- Built a recurring visual library of carousels, reel covers, and festival posters for a salon brand, maintaining visual consistency across a high volume of deliverables.

Builders Playground — Startup Launch Visuals

- Rapid-turnaround design set (highlights, reel covers, posters) supporting a new brand's initial social media launch.

Ranjeet Raj Official — Recurring Creative Support

- Ongoing project-based design support across multiple creative briefs over time.

AB Talks — 60-Day Claude AI Challenge

Ongoing, 2026

- Public daily learning challenge documenting AI-assisted design and prompt engineering practice, including visual explainers and structured experiments, published on GitHub and LinkedIn.

EDUCATION

Bachelor of Computer Applications (BCA), Manipal University Jaipur

Jaipur, Rajasthan / Currently Pursuing

May 2025 – June 2028

Senior Secondary (Class 12), Arts/Humanities Stream, Kendriya Vidyalaya

Raebareli, Uttar Pradesh

June 2021 – Aug 2023

AREAS OF INTEREST

Graphic Design, Visual Communication, Social Media Design, Brand Visuals, Creative Technology, AI-Assisted Creative Workflows, Web & Digital Experiences

ACHIEVEMENTS & CERTIFICATIONS

- Canva Design Rockstar — Ranjeet Raj
- Advanced Graphic Design — Ranjeet Raj
- Graphic Design & Video Editing Training — Vipul Singhal
- Design Training — Rajeew Mehta Course
- Canva Design Bootcamp (15 Days) — Shruti Rajpoot
- Instagram Influencer & Content Design Using Canva, Cohort 1 & 2 — Rajas Nikhumbh

TECHNICAL & AI SKILLS (SECONDARY TO DESIGN)

- HTML5, CSS3, JavaScript (basic)
- AI-assisted coding and website development
- AI tools: ChatGPT, Claude, Gemini
- Prompt engineering
- AI-assisted design workflows
- Website testing and basic functionality review
- Basic web development and frontend experimentation
- GitHub and Git
- AI development tools and workflow experimentation

ADDITIONAL BACKGROUND

Began designing independently around Class 9 using Canva, gradually taking on personal projects, practice work, and design requests from friends and acquaintances. Joined a design learning cohort in 2023 to build on self-taught skills. Explored both graphic design and web development over several years before graphic design became the clearer strength and earning direction in 2026, when freelance client work began. Continue to actively strengthen design fundamentals, having learned from early rejections and project gaps which specific skills need development. Estimate 800+ Canva designs created over time across personal, practice, and freelance/client work, based on recollection rather than an audited record (some 2024–2025 work was produced on a third-party account that has since closed). Actively experiment with new AI tools and creative workflows alongside core design practice.
